experienced it and managed it well so now they are developed countries. Indonesia must be able to manage it, especially preparing its youth, and I hope all the youth who are here now when Indonesia Emas 2045 will become great and tough leaders in their respective fields," he hoped.

Previously reported by the Assistant Deputy for Youth Leadership, Deputy for Youth Development, Ministry of Youth and Sports of the Republic of Indonesia, Andi Susanto, that TALENTA MUDA this time was attended by 110 youths from various provinces in Indonesia. Gradually, they have graduated and passed the selection from 742 who registered.

"This YOUNG TALENT was attended by 110 young people out of 742 who registered, which means that all of you are selected young people who have gone through a fairly strict multi-level selection process," said Deputy Assistant Andi.

During the training period, it will be supervised by a state institution that is very credible and experienced in forming the character of national leaders, namely the National Resilience Institute (Lemhannas).

"Younger siblings are lucky youths because they will be trained directly by Lemhannas which has produced many leaders, many people have not felt and want training at Lemhannas, you will undergo it, make good use of it and welcome Indonesia Emas 2045 by continuing to play an active role in youth participation in all fields, especially leadership," he concluded.

This activity also involved alumni of PKPMN Batch I-IV as facilitators and will take place from 1-16 September 2024. Present at the opening were other Deputy Assistants and the Main Expert Policy Analyst at the Deputy for Youth Development of the Indonesian Ministry of Youth and Sports and online the Heads of Youth and Sports Services throughout the provinces in Indonesia.
