Jakarta: The Indonesian Ministry of Youth and Sports (Kemenpora) supports the National Narcotics Agency (BNN) in preventing the abuse of narcotics and illegal drugs (Narkoba) among young people.

The support was emphasized by the Expert Staff for Youth and Sports Innovation at the Indonesian Ministry of Youth and Sports, Yohan, after representing the Minister of Youth and Sports, Dito Ariotedjo, attending the Press Conference "Results of Action by the Drug Eradication Desk and Live Simultaneous Searches" at the BNN Central Office, Jalan MT Haryono Number 11, Cawang, Kramat Jati, East Jakarta, Monday (3/3) morning.

Expert Staff Yohan explained that in this press conference, the Coordinating Minister for Political and Security Affairs (Menko Polkam) General of Police (ret.) Budi Gunawan conveyed the confiscated items that had been carried out by the BNN's action team or desk.

"The result of this action is the cooperation of several ministries and institutions that have been involved in preventing and prosecuting these narcotics," he explained.

In the press conference, Coordinating Minister for Political and Security Affairs Budi Gunawan also advised the youth to avoid drugs. The Ministry of Youth and Sports, said Expert Staff Yohan, certainly supports efforts to prevent drug abuse among youth.

"As we know, of the 3.3 million drug users reported by the Coordinating Minister for Political, Legal and Security Affairs, almost two-thirds are young people, aged 15 to 24 years. So of course it is very concerning for the Ministry of Youth and Sports," said Yohan.

Therefore, the Ministry of Youth and Sports continues to contribute in terms of how these youth can be saved. Among them are through prevention efforts through activity programs that can be carried out in the Ministry of Youth and Sports environment, especially in the field of youth services.
